

**On-site**

## KLS Satellite Symposium @SFOMK 2026

**Tórshavn, Faroe Islands May 20, 2026**

**Advances in concomitant orthognathic surgery and TMJ reconstruction with IPS Implants® TMJ Prosthesis**

**KLS martin**  
GROUP

### Satellite Symposium

#### Target audience

- Maxillofacial surgeons performing TMJ surgery
- Biomedical engineers
- Surgeons and residents interested in latest innovations in CMF surgery

#### Target

Nadeem Saeed (London, UK)

#### Event details

**Date** | May 20, 2026

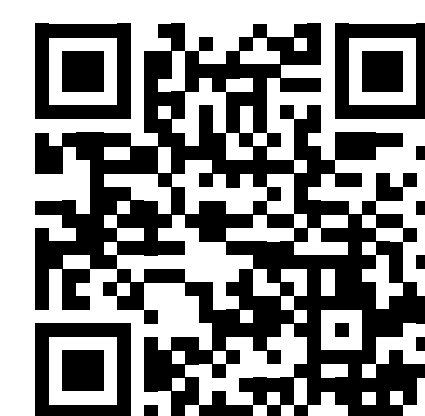

**Time** | 08:00 – 12:00 a.m.

**Fee** | 1.100 DKK

**Place** | Nordic house,  
room Skálin

#### Registration

### Satellite Symposium

#### Program

- Current and evolving indications for TMJR
- Improving the current status in TMJ prosthesis designs – Ideal considerations in TMJR
- Surgical innovation is our passion: Advancing TMJ prosthetics with anatomical precision, material mastery and manufacturing expertise
- Preliminary experience with the TMJ prosthesis – learning from the learning curve
- TMJR in combination with orthognathic surgery as a one-step approach and surgical sequencing
- Balancing act: Assessing the risks and rewards of TMJ replacements in pediatric patients
- TMJR in syndromic cases
